

# “Helping Your Move”

Tailor-made solutions for your business

In Codimar we are manufacturers of machines for different uses. Gravity roller conveyors motorized, chain conveyor, belt, turning tables, transfers, pallet stackers, dispensers...

## Gravity

There are gravity conveyors of different types and characteristics such as are: slides, ball table, lane rollers, roller curve, spiral gravity...

It depends on what product we need to transport to opt for the use of one conveyor or another.

All our conveyors and machines in general are carefully inspected and verified according to the Quality Control System implemented in our Company, according to the European Standard ISO 9001:2015. Certified by BVQi.

Motorized

Turning tables

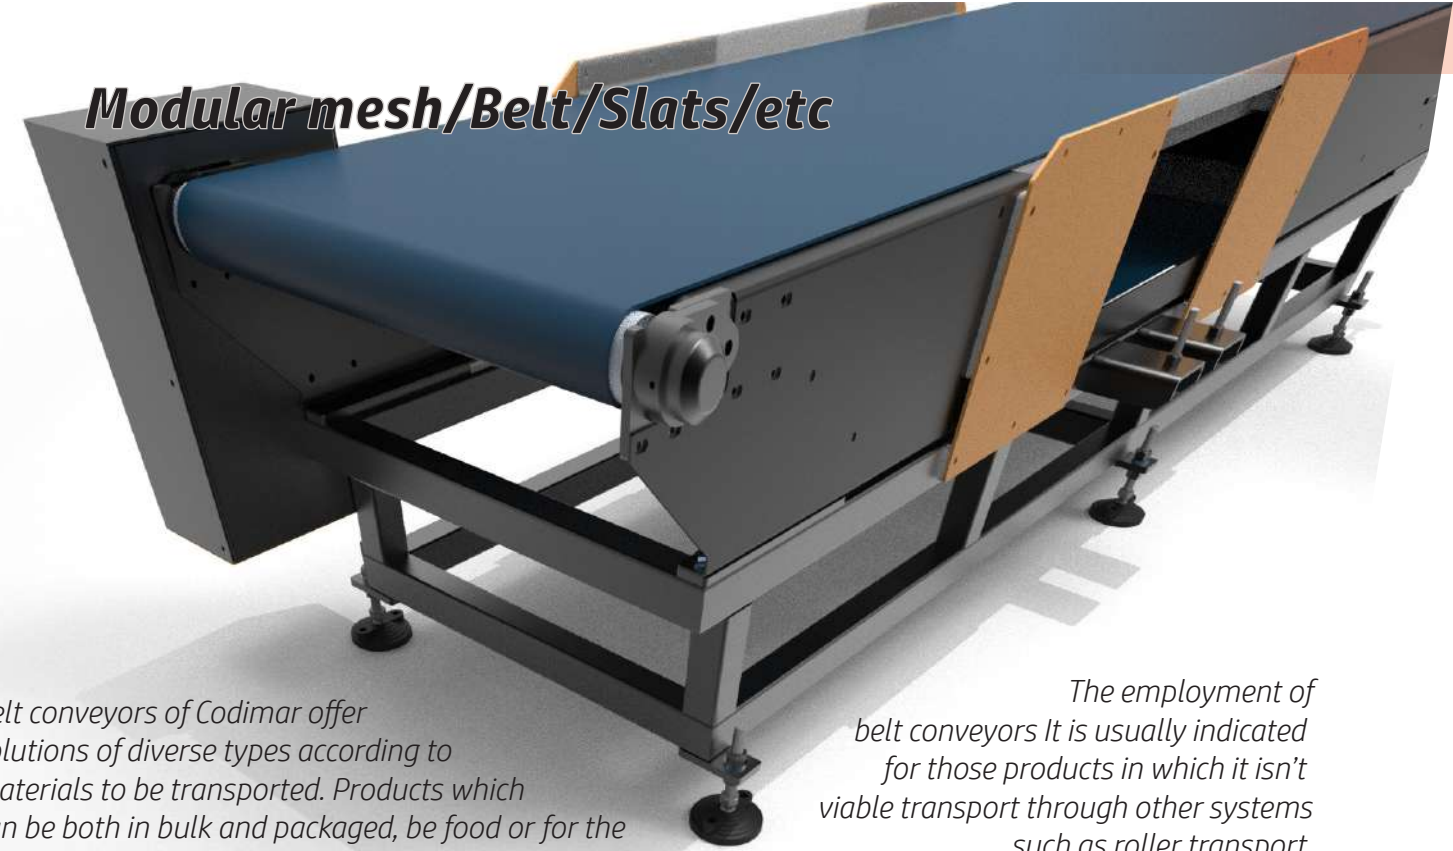

Chain conveyor

Transfer

## Modular mesh/Belt/Slats/etc

Belt conveyors of Codimar offer solutions of diverse types according to materials to be transported. Products which can be both in bulk and packaged, be food or for the industry in general.

The employment of belt conveyors It is usually indicated for those products in which it isn't viable transport through other systems such as roller transport.

# Everything we can do to improve **your business**

## Dispensers/Stackers

Codimar manufactures stackers or pallet dispensers designed to stack and dispense pallets automatically so that the work is done in less time and with less effort on the part of the operators.

Possibility of serving automated, with keypad analog or digital. Mechanical processes to suggest. Standardized measures or according to request, with time of service from 6 weeks onwards.
